

Thrush & Dentures

Thrush, or Candidiasis is:
an Oral Yeast Infection

OR

Oral Fungus

Sometimes Caused by Recent Antibiotics

(* Even if you are prescribed an antifungal if you don't also treat dentures with an antifungal, the fungal infection will keep coming back again and again)

Symptoms:

- Very Red Gums
- Burning Feeling
- White Film that Wipes Off Tongue, Gums, or Cheek

How to Treat:

- Prescription Antifungal
- Eat Yogurt!
- Take Probiotics
- Call Your Primary Care Physician
- Clean Your Dentures Thoroughly!
- Soak Dentures in Prescription Mouthwash
